

To Infinity and beyond

Come join us in the picturesque Barossa Valley for the South Australian Dental Therapists' Association Inc. Biennial Conference. The programme will be held over 2 days and incorporate scientific and non scientific continuing professional development.

A wide variety of speakers and workshops have been sourced to provide variety and interest for oral health and dental therapists from both the public and private sectors.

Please find within this brochure the preliminary program and registration information.

The executive team and I look forward to welcoming you to this event.

The 2 day conference will be held at the Novotel Barossa, Rowland Flat SA only a short distance from the well known town of Tanunda.

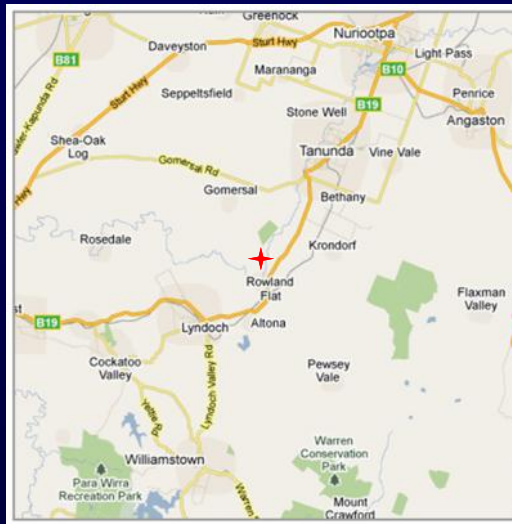

Accommodation can be sourced at the Novotel or at nearby properties. For further details go to the professional development page at www.sadta.com.au

So to secure your place at this exciting professional development opportunity register online by typing in the following into your internet explorer address bar :

Workshops

Each delegate will nominate for 2 workshops. One from Saturday am offerings and one from the pm offerings. First choice will be granted to earlybird delegates who register and pay by March 20th 2011. As the workshops have a hands on approach strict limits to participants for each session is required. A brief outline for each workshop is provided.

Storyboards

Presented by Autism SA this workshop will provide you with the theory to develop and make chairside resources to assist with the management of clients with Spectrum disorder

Periodontal Update

Presented by Ms Jane Rossi and Ms Cathy Snelling this update will cover current theory and practical participation in periodontal probing and recording.

Critical Reading

Dr Toby Hughes will provide valuable information and practice on how to critically read journal articles and research papers.

Instrumentation and sharpening

Ms Judy Goode from Hu Friedy will review hand scaling and instrument maintenance, with an emphasis on practical participation.

Patient Management 0-4 year olds

Ms Sue Stevens an experienced Dental Therapist with more than 25 years experience will share her successful techniques.

Case Studies and Treatment Planning

An opportunity to look at everyday and more unique cases and discuss the treatment options and plan for achievable outcomes.
